

*DONNER*

**DEP-20**

数码钢琴使用说明书

**DIGITAL PIANO**

**INSTRUCTION MANUAL**

Please read carefully the following precautions before use.  
Keep these precautions somewhere safe for future reference.

### **Warning**

▲When using, please observe the following precautions at any time. All these precautions prevent user from casualty accidents caused by electrical shock, shock circuits, accidents, fire or other dangerous events. Notices are described in the following (but not limited to):

- Keep away from rain & avoid using in the damp place.
- Do not put the water container on the piano since it may result in water flowing into the piano.
- If wire or plug is wore out, damaged or cut off suddenly during operation with unusual odors or smoke, please shut off the power immediately, pull out the plug and call maintenance personnel to check & repair.

▲Please control the supply voltage between 100V-220V, too high or too low will damage the piano.

- Please turn the power off and pull the plug before cleaning the piano.
- Do not touch any charged body with wet hands or wipe & wash the piano with corrosive volatile solvent.
- Check the condition of power switch & line regularly.
- When replacing the fuse, be sure to use only a fuse of the same rating.

### **Notes**

▲When using, please also observe the following precautions to avoid injury to user & other people or avoid damage to the piano or other external equipment. Notices are described in the following (but not limited to):

- Keep the AC power cord away from heat, such as heater.
- Don't over bend the power line.
- Don't put heavy stuff on the power line.
- Don't place the power line somewhere people walk through.
- Don't twine other stuff with power line to avoid damage the power cord.
- When pulling the plug, please pull the plug itself rather than wire.
- Unplug the power plug when not in use or under thunderstorms weather.
- Don't place the piano in dusty, vibration, cold or high temperature environment (Such as direct sunlight, heating or sun-exposed conveyance) to avoid damage inner or external components.

- Unplug the power line or other connection wires before moving the piano.
- Wipe the piano with dry and soft cloth for cleaning. Do not wipe it with paint, organic solvent, detergent or other corrosive cleaners to avoid color fading of the panel or piano key.
- Please turn off all the power switch before connecting the piano with other devices.
- Adjust the volume to the minimum before switching off the power. When using, set the volume to the minimum first, and increase it to confirm suitable volume.
- Keep away from other appliances, such as television, radio, sound, etc. Because they may interfere each other.
- Set the piano on flat ground to avoid toppling down.
- Don't put heavy stuff on the piano and do not type on the keys or adjust the switch heavily.
- This product has volume settings with large range to fit most occasions like classroom, studio, etc. For daily use, user should adjust the proper volume. If the volume is too loud for a long time, it will affect the musical effect and damage your listening.
- Avoid violent collision because it may damage the user and piano itself.

1. Slightly install the music stand into the groove of the piano body.

2. Insert pedal into the pedal jacks on the back of the body.

After the installation is done, plug in the power supply and start your music journey. (Power Outlet is on the back of the body.)

## 1. Piano Connection Interface Panel

- ① Power Line Socket
- ② Audio Output
- ③ Audio Input
- ④ Sustain Pedal Socket

- ⑤ Pedals Socket
- ⑥ USB Transmission Socket
- ⑦ MP3 Socket

## 2. Earphone Interface

- ⑧ Double-Earphone Socket

## 1. Power Line Socket

1. As figure shows, connect the power line when using. One end is inserted into the power outlet on the controller plate at the bottom of piano. The other end is inserted into a 100V-220V household socket.
2. Please unplug the power line and reserve it in an appropriate way when it is not used for a long time.

## 2. Audio Output

It supports external large speaker equipment by audio output plug.

## 3. Audio Input

External sound source can be connected to electric piano to play by audio input plug.

## 4. Sustain Pedal Socket

The product has tenuto pedal function. Please use pedal according to your needs when playing.

## 5. Pedals Socket

Insert the pedal plug into the round jack at the back of the piano and put through the triple pedals function with speaker effect. The order is as follows: Soft, Sostenuto, Sustain; Single pedal is optional. (Third Point)

## 6. USB Transmission Socket

The product can be connected with computer by USB transfer interface. You can learn or play the keyboard to play, compose, store and operate other functions by the pre-installed music software on the computer. Edited music or accompaniments built in the music software can be played by the digital piano which is connected to the software or performed along with accompaniments.

## 7. MP3 Socket

1. Insert the flash disk with MP3 format songs into "USB plug" and play MP3 songs in 3 seconds or so.
2. By pressing the MP3 Control "▶||" button, MP3 songs can be paused or replayed.
3. Press once the control button of MP3 Control "◀◀" or "▶▶" lightly to select previous or next MP3 songs.
4. Adjust the volume of songs by long pressing the MP3 Volume "⊕" or "⊖" control button.

- The peak value of sound needs the control of main volume lever.

## Attention!

- Only support songs with MP3 format.

## 8. Double-Earphone Socket

The connection of headphones will cut off the output of the piano built-in speaker for not disturbing others when performing. This product is designed with 2 earphone sockets which you can insert double earphones.

This chapter will introduce functional jacks of the piano & related contents before performance to you. Before turning the power switch on, be sure to read the following contents.

## Turn On the Power

1. Check if the power switch of the piano is turning off first. If not, please turn off the power.
2. Connect the power, insert the plug into the power jack behind the piano first, and then plug the opposite end of power adapter into the power socket.
3. Before turning on the power, adjust the volume controller to the minimum first.
4. Before turning off the power of digital piano, adjust the volume controller to the minimum first, and then turn off the power.

### NOTE

When not using the piano or thunder  
Please unplug the power plug.

## Master Volume

Adjust the main fader of control panel.

1. Swipe the fader right means increase the volume.
2. Swipe the fader left means decrease the volume.

## Tone Setting

1. This digital piano has 238 types of tone.(See annex I)
2. The default tone is grand piano(000). Press the tone button to display +/- button and change the tone by adjustment.
3. Double click to play back the default tone.

## Demo Playing

Press the Model Music Collection button to start playing the demo.  
Select the pieces by clicking +/- button .  
Re-press the Demo button to stop playing(See annex II).

## Velocity Curve

1. Three kinds of velocity curves can be set: Light, Standard, Heavy(t00-t02) & Velocity switch.  
The default velocity is t01.
2. Press Velocity button repeatedly to the setting and choose the corresponding curve: t00-t02, tof.

## Rhythm Selection

There are 200 kinds of rhythms: 000-200. (See rhythm sheet of annex III)  
The default rhythm is No.000.

Press the button and entry mode choice to select the proper rhythm by +/- button.  
Press the Start/Stop button to start playing the rhythm.

## Accompaniment Speed Adjustment

1. Adjust the speed of accompaniment by Tempo +/- button.  
Adjustable range from 20 to 280 beats per minute .
2. Choose the accompaniment when it stops, and the speed automatically turns to the preset.  
Switch the accompaniment when it is playing, the speed does not return the preset.
3. Press the Tempo + & - button at once to return the default.

## Accompaniment Starting Mode

The accompaniment of this digital piano has two opening modes:

- ◆ Auto Start:  
Press the Sync button to enter prepare state. When performing, the accompaniment will start up automatically.  
Press the Start/Stop button to stop the accompaniment.
- ◆ Manual Start:  
Press Start/Stop button, the accompaniment will start immediately, repress the button, it will stop immediately.

## Automatic Chord

- There are two chord modes of this digital piano: Single Finger Chord & Multi Finger Chord.
- Press Comprehensive Chord button means enable automatic chord function that will identify automatically single finger & multi finger and play corresponding chord when playing the keys of the left half. Repress the button to turn off this function.

## Metronome

1. Press Metronome button to enable this function, the default speed is that of first rhythm.
2. Adjust the speed range of metronome from 20-280 beats per minute by Tempo +/- button.
3. Repress the Metronome button to exit this function and the current speed is saved.

**Note: Restart the piano will restore the default speed.**

## Metronome Setting

Long press to enter the mode of metronome type selection.

Choose corresponding metronome type by +/- button:(1-4, 2-4, 3-4, 4-4, 3-8, 6-8).

When finish the selection, the chosen type will be confirmed by pressing the Metronome button or after two seconds of user inactivity.

## Transposition Setting

- Press +&- button simultaneously to enter the mode of transposition selection and choose by +/- button.
- The transposition type has 12 positive & 12 negative levels.
- Press the Tone button or Rhythm button or wait for two seconds to exit this mode.

## Double Tone Setting

Enable this function by On/Off button.

Choose the first tone by +/- button, and then press Double Tone button to enter selection mode and choose second tone by +/- button.

## Double Keyboard Setting

Enable this function by On/Off button.

When press this function key, the A1-B4 musical scale will play A2-B5 scale accordingly while C5-C9 scale will play C4-C8 scale.

Choose the main tone by +/- button to replace the original tone of C5-C9 key.

## Keyboard Drum Setting

Enable this function by On/Off button.

Press this button to get the drums on the keys.

## Record Setting

- Press Record button to enter record mode and play the Metronome sound.
- Press the Metronome button to switch off the sound.
- Press any key to start recording.
- Repress the Record button to stop recording.

## Playback Setting

When the sound track is recorded, press the Playback button to play the recorded sound track.

## Effect Setting

Enable this function by On/Off button.

Press this button to open DSP effect.

## MP3 Setting

Press MP3 Player button to play or pause the MP3 music.

Short press MP3 Previous Song button to play previous track.

Long press MP3 Previous Song button to turn down the volume.

Short press MP3 Next Song button to play next song.

Long press MP3 Next Song button to turn up the volume.

Issue	Reason	Solution
There was no sound on the keyboard.	1.Volume Controller Set at Minimum Position. 2.Headphones or Plug Converters insert headphone jack. 3.The power supply is not connected or the piano is off.	1.Turn the volume to the right maximum volume. 2.Remove the original connector form the headphone jack. 3.Turn on the power supply and press the boot button.
The pedals don't work.	1.Connecting line jack of pedal is not plugged into piano. 2.Pedal plug loose.	1.Plug the pedal cord into the piano jack. 2.Check to confirm whether the plug at one end of the pedal connection is loose or not, and then tighten it.
When the piano power is turned on or off there is a murmur.	Normal phenomenon	This is a normal phenomenon, indicating that the current enters the machine at this time.
The piano is noisy when using a mobile phone.	Radio interference	The use of mobile phones in the vicinity of the piano produces radiation. To avoid this situation, you can turn off the mobile phone or use it away from the piano.
Abnormal tone or rhythm.	Power shortage	Power shortage. Check power stability.
It seems that all tones are pronounced or that the pronunciation seems to be cut off.	Normal phenomenon	The maximum number of simultaneous sounds on this instrument is 128 notes. If the dual tone mode is in use and the accompaniment or music is playing, some notes or sounds in the accompaniment or music will be default.
Under the same timbre, the quality of a note is different from that of a note.	Normal phenomenon	This is a normal phenomenon. This machine adopts AWM sound source mode. This kind of sound source is sampled and recorded in the whole keyboard area, so the quality of the two notes is slightly different.

# After Sale Service

## Warranty:

Dear User:

This qualified product passed quality verification under strict quality management.

Thank you very much for using our digital piano. In order to satisfy you with our services, please read carefully after purchase and fill out this 3-guarantee card and properly keep.

- ◆ During warranty period, we are responsible for giving free maintain if the product breaks down under normal usage circumstance. The warranty period of our product is referred to the period of state regulation.
- ◆ This card is considered as the proof of warranty.
- ◆ The work of guaranteed repair will be responsible and arranged by the seller. Please show this card and related proof when contacting.

### **Free maintain won't be given under the following circumstance:**

1. The period of 3-guarantee has expired.
2. The breakdown caused by the manipulation that hasn't follow the requests of the user manual.
3. The damage caused by the dismantle movement of a non-our-company authorized maintainer .
4. No certificate & effective invoice three bags, but can prove that the digital piano in the three bags of goods, except for the life of.
5. Three Guarantees unauthorized alteration.
6. The damage caused by the Force Majeure.

**The fare of paid service is confined to material,  
labor & shipping fees.**
